

IMMENSE

ROLEPLAY

ANIMAL PEDS

You must have been in the server for at least 30 days before you will be considered for an animal ped application.

If your application was denied, you must wait 7 days before you can reapply.

ANIMAL PED RULES

1. Phones are only to be used when you are in a private space (unobserved) for the following: Checking Services App and sending a 'GPS' ping message to your owners/caretakers. Trading numbers with humans is only allowed in these unobserved/private spaces.
2. NO operating vehicles, weapons or handling of illegal items.
3. Keep /me's as REALISTIC as possible. /me's need to be an action, humans cannot read dog thoughts.
4. Interaction between animals can convey more than actions, basic communication is allowed, eg. /me smells like 'Dusty D Dawg' /me shows off a favourite toy
5. Try not to open car doors on your own. It's understandable that in some instances this may happen when someone is unfamiliar with caring for an animal ped. If you're getting into a car and the person driving does not open the door, you may state "/me paws at door" or "/me barks at door" to signify you need the door open.
6. You MUST have a reason for attacking. Warning signs MUST be administered before said attack (growling, hair standing up, etc). This will give your attacker time to stand down or begin the interaction and allows for more RP.
7. You may attack if your human friends command you to, if you are attacked directly, or if your human friend is being attacked. Keep in mind that animal bites/attacks do more damage than a standard human melee attack.
8. We encourage you to start as a stray. You may also belong to a group, have multiple caretakers or a specific owner. You may be surprised who you form bonds with as an animal that you never did as a human. You will probably need to help train your human friends as much as they need to train you.

9. Animal Peds can use bandages and armor but human friends must RP out applying them.
10. Animals are not allowed to attend heists or be part of a '6 Person' group; but are allowed to be around petty crime such as crafting tables, boosting and low level robberies.
11. Animal peds are not allowed to be on radio unless on duty for EMS or PD
12. Animal peds are not allowed to wear goggles or masks that look like goggles unless on duty for EMS and PD
